## \*\*\*EDITORIAL\*\*\*

We are using today, for our editorial, excerpts of an article which we consider should be of some interest to our readers taken from a recent publication of the "Awake" magazine: "DO YOU REALLY KNOW?". "The more<sup>2</sup> wise person learns, the more he realizes how much more there is to know. He appreciates how limited his knowledge really is, and that in a lifetime of seventy or eighty years one can only scratch the surface of the things there are to learn. He also realizes that many things there are to learn. He also realizes that many things men accept as correct today may be corrected with an increase of knowledge tomorrow. This keeps him from being dogmatic and from manifesting that irritating "know-it-all" attitude. Generally, it is the person that has only a smattering of knowledge that develops this attitude. It is particularly a characteristic of many youths today. They learn a little, and then they know it all. Their newfound knowledge puffs them up, causing them to consider their parents and other older folks to be "old fogies". Unfortunately, many persons carry this "know-it-all" attitude over into adult life. Such persons will go to great ends to give the appearance of knowing. Have you ever had the occasion to ask for directions, and, instead of the person simply saying he did not know, he directed you on a wild-goose chase? Certainly it is annoying when individuals give misleading information simply to give the appearance of being well informed. But it can be more than annoying; It can at times cause great suffering and heartache. You may even have a basis for your contention, but that does not necessarily mean it is correct. Due to inadequate methods of observation, faulty experiments or insufficient knowledge, men sometimes reach different conclusions. These are printed in reputable books and magazines, and conflicting ideas are thus presented. So, can you truthfully say you really know for sure, even when you have a reputable source of information? A mature, wise person will take into consideration that the conclusions of men are at times incorrect. He will therefore not be dogmatic. He will be reasonable, and will recognize that there may be more to the subject than just what he had heard or read.

TV AND THE SPONSOR.

"What effect does the sponsor have on the plot and action of a TV drama? Quite a bit, says Newton N. Minow, former chairman of the Federal Communications Commission. He says, for instance, that an auto sponsor would not want a drama with an auto accident, and a razor blade company would hardly sponsor a drama featuring a bearded hero. The physician in a television drama had better not order a patient to stop smoking-- not if a cigarette company sponsors the show".

Dr. Jagan urged people to beware of those

Trinidad. Tued. Sept. 29th.

(Continued on page 4).

(Continued from page 3.)

President Senghor was warmly greeted at the ramp by the Governor-General Sir Solomon Hochoy, and the Prime Minister, Dr. Eric Williams, before treading the red carpet. Amid the playing of the National Anthem of both Countries President Senghor was accorded a 21-gun salute--without guns. The welcoming crowd at the airport chuckled when the Regiment substituted electrically detonated explosives for heavy artillery. Accompanied by Sir Solomon, the visiting President inspected the 100-man guard-of-honour after taking the salute.

THINGS TO KNOW.

This union lasted from 1828 to 1845 when it was abolished since the advantages anticipated did not materialize. After 1845 the Windward Islands and the Leeward Islands were united into one Administrative unit in direct contact with the Mother Country. Revised regulations confirmed the new relationship in which the autocratic form of Government was strictly maintained. As with the former union with Surinam, the new union brought no changes whatsoever in the form of Government for Aruba.

GOVERNMENT REGULATION OF 1848.

Through a revision of the Constitution in 1840, the Parliament in Holland acquired co-supervision over Colonial Finances. The Constitution of 1848 was the second step in putting an end to the exclusive authority of the King over the Colonies and Overseas Territories of the Kingdom. The new constitutional stipulations provided for Ministerial responsibilities for the Colonies. Governmental Regulations for the Overseas Territories were to be promulgated by law. Thus was the power of the King curbed to a great extent. These Constitutional amendments were enacted primarily to manage the prosperous East Indies which were providing fabulous profits for the Dutch Treasury. These profits enabled Holland to cover deficits accrued by Surinam, the Curacao Islands and the Dutch Colonies on the West Coast of Africa. In later years, the funds for the emancipation of the slaves (1863) would also come from East Indian surpluses. The West Indies no longer held any promise; the Settlements in Africa were about to be abandoned and at one time serious consideration was given in Holland to selling Her West Indian Holdings.

Little did Holland dream in those days that two of the Islands in the Caribbean would become International Centers of Shipping and Industry.

IT IS DANGEROUS. WATCH OUT!

DEADLY JEWELRY.

The seeds are a mottled black and brown and resemble a beetle. They make interesting playthings for a child and have also been made into jewelry. Harry Raybin, of New York City's Poison Control Center, not long ago found necklaces of castor bean seeds being sold at a church fair in Patterson, New York. Certainly, these beans are so dangerous that they should not be left where small children could chew on them. You can never know which plants are poisonous. Authorities are constantly adding new toxic plants to the list. It was not discovered until 1961 that the seed of wisteria, a very common vine, are poisonous. Several children in New Jersey and the South became acutely ill after eating as few as two seeds. No deaths have occurred yet.

JEHOVAH'S WITNESSES HOLDING ASSEMBLY  
HERE FOR FOUR DAYS, OCT. 8TH. TO 11TH.

Jehovah's Witnesses intend to get the Biblical answer to that Question in the 4 day assembly. "ARMAGEDDON OR PEACE AND UNITY? The assembly will be held Oc. 8th. to 11th each day from 2 P.M. except on Sunday 11th. when it will be held commencing at 9. A.M. The place on all days will be the Odd Fellows Lodge, San Nicholas. Mr. Gabriel Henriquez, spokesman for the group, said that while the world fears a nuclear war will end the present civilization, the greatest threat to mankind is God's War which the Bible calls Armageddon and which will not only end this present system of things but will open the way for a righteous world government of God's making. According to Mr. Henriquez, only those that prepare themselves will survive that war. The outstanding features of the 4-day assembly will be live demonstrations showing how to produce the fruits of God's Holy Spirit, a baptism ceremony and the climax of the Assembly which will be a public lecture Sunday at 7.P.M.

"Peace Among Men of Good Will or Armageddon--Which? The Assembly is considered of such importance, that upward of thirty delegates will be coming from Curacao to attend, and they will be shown Christian hospitality by being guests in the homes of the Aruban Witnesses. On that point, Mr. Henriquez further said, "Hospitality is one of the fruits of the Spirit, so just as Jehovah's Witnesses around the world do, we too, accommodate our Christian brothers when necessity arises. A cordial invitation is extended to everyone to attend all of these sessions. Learn more about producing the fruits of the Spirit in our lives, thereby making ourselves a blessing to our fellow man".

THINGS TO KNOW.

By: M. D.

ABDOMINAL PAIN.

The location and character of pain in the abdomen will vary greatly depending on which one of the many organs is affected. This is for a doctor to determine; he may have to have X-rays taken and tests performed in order to decide. However, if you know the nature of your pain, you may try to do something about it before the doctor comes. A belly-ache from overeating, or by eating spoiled or undigestible food or by eating hurriedly and bolting food will start with a feeling of discomfort in the pit of the stomach about half an hour later after the meal. This will soon be followed by a nauseous feeling accompanied by more or less dizziness. The pain in the uppermost center part of the abdomen will be in the nature of pressure. The feeling of pressure will extend upward causing a choking feeling in the throat. The best thing to do in this case is to make the patient vomit and so rid the stomach of the offending food as promptly as possible. Let him tickle the throat with the finger a few times at the back of the tongue until vomiting is produced. Drinking quickly of a pint of warm water which into a tablespoon of common salt or mustard powder has been stirred will also cause vomiting promptly.
